The diagram shows two views of the wreath frame. On the left, a circular wire frame with an outer ring and an inner ring. A horizontal double-headed arrow across the outer ring is labeled "25" Outer Ring". On the right, a smaller, more detailed view of the frame with branches attached. A horizontal double-headed arrow across the widest part of the branches is labeled "36" Tip to Tip Widest outer point".

Commercial Grade Frame
and PVC Noble Fir

Artificial Christmas Wreaths are measured with the tips fully extended from the outermost point on one side directly through the center to the outermost point on the opposite side.

To bring out the full shape and beauty of wreath we encourage you to fluff the branches. We have included a small image below to show the difference it makes and how beautiful your wreath will look fluffed.

The importance of fluffing your wreath
