The diagram shows two views of the wreath's wire frame. On the left, a circular frame with an outer diameter of 56 inches. On the right, a smaller circular frame with a diameter of 45 inches. A separate diagram shows a branch with a 72-inch tip-to-tip extension from the widest outer point.

Commercial Grade Frame and PVC Noble Fir

Artificial Christmas Wreaths are measured with the tips fully extended from the outermost point on one side directly through the center to the outermost point on the opposite side.

To bring out the full shape and beauty of wreath we encourage you to fluff the branches. We have included a small image below to show the difference it makes and how beautiful your wreath will look fluffed.

The importance of fluffing your wreath
